

UCLA High Energy & Astro-Particle (HEAP) Seminar

“Current Landscape of Dark Matter Searches”

Presented by Alvine Kamaha
UCLA

I will give the summary talk that I gave at the UCLA Dark Matter Conference last month for experimental searches for the missing (invisible) matter in the Universe. This will include WIMPs, axions, axion-like particles, dark photons, black holes, and other candidates.

Location: Knudsen 4-134

Date: Wednesday, April 16, 2025

Time: 12:00pm

UCLA
